SUBJECT: Work Breakdown Structure (WBS) Level III Status for
Crew Station Element

1. Reference your memorandum, subject as above, 16 May 00.
2. I received a request from your office to endorse the elevation of the cockpit/crew station system elements to Level III of MIL-Handbook 881, Work Breakdown Structure, an effective way to emphasize the human factors component of Human System Integration in the acquisition process. AMCOM fully supports the USAF Aeronautical Systems Center proposed draft revision to MIL-Handbook-881 and urges OSD adoption of same.
